Staff Accountant | CPA Candidate | Barrington, IL | williamcjk11@gmail.com | (773) 415-4606 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Staff Accountant at a \$200M nutraceutical manufacturer with a hybrid mandate to bridge accounting operations and AI/automation tooling. Computer Science degree from the University of Pittsburgh; CPA exam-eligible September 2026. Ships production multi-agent Python and .NET pipelines the accounting team uses every close cycle, with human-in-the-loop controls and structured audit logs on every deployment.

EDUCATION

Oakton Community College

Professional Accounting Certificate – CPA Preparation

Des Plaines, IL

January 2026 – Present

- **CPA Eligibility: September 2026**

University of Pittsburgh

Bachelor of Science in Computer Science

Pittsburgh, PA

2024

WORK EXPERIENCE

Ortho Molecular Products

Barrington, IL

Staff Accountant

March 2026 – Present

- Concur Expense Classifier (production): Multi-stage classification pipeline — extractor → rule engine → employee matching → edge-case agent → writer. .NET 8 C# production build with Python reference implementation. ~97% exact-match accuracy on non-sales transactions, ~95% on sales. Decision memory persisted in SQLite for full auditability.
- Royalty Calculation Pipeline (production): Three-agent Python system (loader → validation → corrections) replacing a manual Excel/pivot workflow for one of four critical month-end reports.
- Closing Command (in development): FastAPI + SQLite multi-user coordination tool with dependency tracking, swimlane visualization, and automatic phase classification. Replaces a legacy Excel + email workflow used by the full accounting team.

Athletico Physical Therapy

Barrington & Lake Zurich, IL

Physical Therapy Aide

September 2020 – August 2021; October 2024 – February 2026

- Supported high-volume clinic operations and managed regulated patient-data workflows.

INDEPENDENT PROJECTS

Local LLM Fine-Tuning (in progress)

- Fine-tuning Gemma 4 E4B on a single RTX 5070 (Blackwell, 12GB) using QLoRA via Unsloth. Stack: Unsloth → GGUF → Ollama.
- First task: a private Schedule C tax classifier trained on IRS source documents, with an evaluation harness and 8-phase productization plan.

SKILLS

Accounting: Bank Reconciliation, Journal Entry Preparation, Sales Tax Filing, Fixed Asset Accounting, Month-End Close, Multi-Entity Accounting, Internal Controls, Audit Readiness

Programming: Python (FastAPI, SQLite, async, multi-agent orchestration, Playwright), C# / .NET 8, SQL (T-SQL against production ERP), Advanced Excel (VBA, Power Query, Macros)

AI/ML: Claude Code power user (custom agents/skills/hooks), Anthropic certifications, multi-agent design, local LLM fine-tuning (QLoRA, Unsloth), inference deployment (Ollama, GGUF), LangGraph, prompt engineering

ERP & Tools: Microsoft Dynamics 365 Business Central (NTLM auth), Concur, Git, VS Code

INTERESTS & ACTIVITIES

HYROX & Competitive Fitness Athlete

Barrington, IL

Athlete

August 2021 – Present

- NAIGC Nationals: #2 Rings (2025), #4 Pommel Horse & Rings (2023). Now competing in HYROX.
